

PEST SEAL®

the multi-pest spray

PESTSEAL® AEROSOL

A ready-to-use formulation containing Deltamethrin and Allethrin, specially formulated against cockroaches and other flying and crawling insects such as flies, mosquitoes, bed bugs, silverfish, etc.

PESTSEAL® is a multi-purpose aerosol effective against all flying and crawling insects such as cockroaches, mosquitoes, flies, bed bugs, ants, moths and silverfish. These pests hide behind cabinets, loose joints in furniture and kitchen shelves, behind the gas cylinder and refrigerator, within cracks in walls and floors ... places that are usually inaccessible to insecticides.

PESTSEAL® penetrates into the deepest cracks and crevices, seeking out and destroying the insects hidden within.

Features

- Ready-to-use spray.
- Penetrates into deepest cracks and crevices.
- Remains effective for weeks after spraying.
- No CFCs - Environment-friendly.
