

TRUBBLE GUM™

the better rat trap

The Open and Shut Solution from PCI to help you get rid of Rats and Mice!

TRUBBLE GUM™ is a unique rat trap that looks like a book and opens like one. Once opened, you can find inside two special glue surfaces separated by spacers to stop them from sticking to each other. These surfaces are extremely sticky. Rats and Mice are creatures of habit they tend to follow a fixed route along walls and corners. And they don't walk they scamper.

All you have to do is open TRUBBLE GUM™ and place it along the rat's route at night. Trap can then be easily disposed off. In case the rat or mouse was not in the area, and hence not caught, you can fold TRUBBLE GUM™ back and try again at another location.

Another quality product from PCI Pest Control Private Limited, TRUBBLE GUM™ has been tested under diverse climatic conditions. The special glue lasts for many years and it can function at temperatures ranging from 0°C. However, reasonable precautions such as proper storage

(away from excess moisture and extreme heat) will ensure that TRUBBLE GUM™ performs as designed. Although TRUBBLE GUM™ is safe and non-toxic.

- This trap is for use indoors only, to avoid trapping non-target animals and birds. It is not to be used outdoors and unsupervised.
- Once placed, please check this trap daily to ensure that no non-target species is trapped by mistake.
- In the event that a non-target species is trapped on the glueboard, please apply vegetable oil. Our glue is oil-soluble and will make it easier for the animal to release itself.
- Keep out of reach of children and pets.

PACKING DETAILS

Available in Regular and Economy size in shipper carton of 50.

- Safe • Non-Toxic • Effective • Convenient
- Easy to Use • Eco-Friendly • Long-Lasting
